FORTIETH YEAR, No. 37

DEATH AFTER LINGERING ILLNESS CLOSES CAREER OF HORATIO S. WESTON

Son of Pioneer of Hancock County Passes Away at Jackson—Was Lumberman, Civitan and Constructionist—Served Hancock County For Many Years as President Board of Supervisors.

Horatio Stephens Weston, 68 years old, of Logtown, South Mississippi, capitalist and lumberman, and chairman of the board of directors of the Lamar Insurance Company of Jackson, died at Jackson Tuesday morning at an early hour. For two years he had been a victim of paralysis, living during that time at Jackson.

With his father and brothers, Mr. Weston organized the Weston Lumber Company of Logtown, Hancock county, in 1889, and became its president in 1912.

Organized State Board. In addition to his lumber activities, he was the originator of the Mississippi state development board, organized to encourage the development of the natural resources of the state.

Among his other business interests were the Bay Hotel Company, operators of the Weston Hotel of Bay St. Louis, and the Lamar Insurance Company, of which he was elected president in 1919.

He was made chairman of the board in 1931. Mr. Weston also was president of the Hancock County Bank of Bay St. Louis and vice-president and manager of the first National Bank of Gulfport.

For 20 years he was a member of the Hancock county board of supervisors, serving as president most of that time.

Funeral Rites at Jackson. Mr. Weston married Miss Lizzie Wall of New Orleans in 1889. Two of four children, Mrs. J. O. Seymour of Jackson and Mrs. R. S. Russ of Biloxi, and three brothers, John H. David R., and A. Coburn Weston, all of Logtown, survive.

Mr. Weston was a member of the Hamasa Temple, Shriners, and the Jackson University Club, the Bay-Waveland Yacht Club and the Jackson Rotary Club, and one of the founders of the Bay St. Louis Rotary Club.

Funeral services were held from the home of his daughter, Mrs. Seymour, Wednesday at 10 a. m. The Rev. Cude Rousseau, a nephew of Mr. Weston, conducted the services. Interment was at the Lakewood cemetery at Jackson.

William Barre, Waldo Otis, Bay St. Louis; John Howze, Bay St. Louis; William Long, Hazlehurst; J. Y. Downing, W. D. Owens, A. G. Miller, W. Calvin Wells, A. E. Babbitt and Fred Nelson, Jackson, and R. R. Clark, New Orleans.

Educated in Logtown. Mr. Weston was the son of Henry Weston, a native of Maine, and Lois Mead Weston. He was the third of nine children.

He was educated in the Logtown public schools and in the Mississippi Military academy of Pass Christian. Early in youth he became interested in the lumber business and during vacation spent his time helping his father operate a sawmill and transport other lumber business. This was at the age of 9.

From the lumber business the Weston fortune was derived. He and his father organized the present Weston Lumber Company of Logtown in 1889, and he became president in 1912, remaining active head after becoming interested in various business enterprises.

Birmingham Firm Captures Contract For Elevating Part O. S. T.

The contract over nine other bidders was awarded at Jackson Wednesday for road elevation for bridge building purposes on each side of Bayou Philip, seven miles east of Bay St. Louis, on the Old Spanish Trail, for a consideration of \$6,500.

This work of road raising is to cover a distance of some two miles and was officially advertised in The Sea Coast Echo for the past two weeks. This elevation of a stretch of road, it is said, is to be done preparatory to the hard-surfacing of O. S. T. later.

At the same meeting of the Highway Commission the postponement until next month of the award of contract for lighting bridge over Biloxi Bay was announced.

CLAYTON RAND AT ROTARY

Asstute Mississippi Publisher Tells of Visit to Mexico City and Attractions

Recently returned from a trip to Mexico City, accompanied by his wife and their 14-year-old son, Clayton Rand, astute and versatile publisher of the Mississippi Guide at Gulfport, and globe-trotter, was the guest of honor and speaker of Bay St. Louis Rotary Club Wednesday of this week at Hotel Weston. This recent visit was his second to that beautiful and famed city within a period of seven years, and in addition to the things he saw his own interpretive thoughts of things, socially and politically as well as economically, were of added interest.

He said Mexico City was a place of culture and refinement long before the era of civilization in this country. The people had built temples and cities that were marvels of beauty and architecture. On the site of the great Catholic cathedral of today had been sunk a great temple of centuries ago and present excavations now in progress had brought forth to light not only many objects of interest and study but had revealed the culture of the people of that time. He spoke of the Mexico City of yesterday and of today, and the photographic pictures added to the interest of the talk. His lecture long ran over the allotted time, but his listeners wanted more and insisted, but he promised a return date.

Mr. Rand is scholarly and his interpretation of travels in foreign lands are always a signal for a treat. Wednesday was no exception.

A committee composed of two, Jos. O. Mauffray and Arthur A. Seafide, were appointed to draft resolutions on the occasion of the death of H. S. Weston, late Rotarian, and a copy to be sent the deceased relatives.

Both the chair and Mr. Rand, prefacing his address, paid brief tributes to the memory of the deceased, one of the founders of the Bay St. Louis Rotary Club.

Miss Clementine Asher Dies at Home In Suburban Section

Miss Asher, who had been ill quite a while, was well known. She was a native of Hancock county, aged 40 years. The funeral was largely attended.

Local Restaurant Proprietor Entertains Successful Candidates at Supper.

C. J. Pitre, enterprising and well-known restaurant owner and operator on the Beach Boulevard, was host Tuesday night to quite a party of gentlemen, representing the successful candidates in the recent county primary elections.

Mr. Pitre had previously invited the officers-designate to be his guests on this occasion and save for two or three, whose presence was precluded by unavoidable circumstances, there was a large and most happy gathering. For the occasion a menu of the well-known Pitre's Cafe reputation had been prepared, faultless cooking served in similar manner and as a whole the occasion was on that will long be remembered.

T. Ed Keller, successful candidate for sheriff, was master of ceremony and wit and oratory flowed throughout the evening. Mr. Pitre was thanked and toasted for both his thoughtfulness and generosity and it was voted that he was not only the host par excellence but that he was equally a good fellow and one of the finest citizens of Bay St. Louis and the county as well.

Mr. Pitre is the owner of Pitre's

FAHEY FUNERAL HOME IN UNION STREET FINISHED

Building and Handsome Interior Is Complete And Last Word in Appointment.

After months of building and remodeling the interior of a former place of residence, the Fahey Funeral home is finished, furnished and equipped and is now open to the public. This work of placing the final touches when interior decorators from away completed their task of hanging the velvet draperies and putting in place other like accessories, was completed the earlier part of the week.

Liberal spaces, tasty and fitting furniture and rich draperies characterize the interior of the place. There is a reception room with a double parlor adjoining. Heavy velvet rugs of neutral tones cover the floors while the walls were done in subdued colors of orange and gold and other kindred shades, in duo tones.

On the same floor is a retiring bed chamber, a breakfast or meal serving nook, and a kitchen in connection. Mr. Fahey's office, fully furnished and equipped with latest furniture, is also located on the same floor.

The second story will serve as a display room, where funeral goods will be shown and from which selections may be made.

It is noted that the lighting fixtures are in keeping with the deep and rich tones of the interior, and while the lights are soft there is ample illumination to preclude too sombre an atmosphere.

The Fahey Undertaking Company, of which Mr. Edmund F. Fahey is the manager, has long planned such a funeral home for Bay St. Louis since there has been no such accommodation here, and in providing for this feature of the life of the town a considerable expenditure was necessary, possibly more than the business will justify, but as Mr. Fahey says, we are here to take care of the funeral wants of this section and we must be amply prepared and fully equipped to do so besides we do not wish to engage into anything that would be shoddy; we wish to commensurate with the sacredness and dignity of the services we are called upon to administer.

The interior of the building in its architectural lines and color of white shows good taste, and like on the inside, evinces the fact that neither money, time nor thought has been spared in the creation of this funeral home which is strictly modern and far ahead of many similar establishments in towns larger than Bay St. Louis. The interior selection reflects the good taste and knowledge of Mrs. Edmund F. Fahey, who made the purchases.

The Fahey funeral service has always been noted for fullest attention, tender and sympathetic consideration and the full value given for whatever the monetary consideration may be.

CITY WINS SUIT IN TEST CASE

Before Circuit Court Regarding Dispensing With City Election This Year—Goes to Supreme Court

In vacation at Gulfport yesterday (Thursday) Judge Wallace White, of the Circuit Court, after due hearing granted a decision in the case of Bay St. Louis wherein the city sought to have the election for city to be held this year postponed till one year hence, in order to conform with the opinion of the attorney general and to conform with the provisions of the new code.

Judge White decided in favor of the city, hence, unless the Supreme Court reverse the opinion, there will be no municipal election held this year—not until the winter of 1932.

The petition by the other side, asking to mandamus the opposition to the election being held this year, was dismissed by Judge White.

As the suit is a friendly one, and to test a new provision of the code, it will be carried to the Supreme Court, where it will be given preference over the calendar.

The suit was filed in the circuit court September 1. Bay St. Louis is represented by the firm of Gardner & Backstrom, attorneys of Gulfport. City Attorney Robt. L. Genin was at the hearing.

In answer to recent petition for a recount of votes, Hancock County Democratic Executive Committee will on this Friday morning, at 10 o'clock, at the courthouse, grant H. Wilbur Driver, recent candidate in the second primary for Supervisor, Beat 5, a recount of ballots.

Mr. Driver in his petition stated that he wished a recount in boxes of North and South Bay St. Louis and questioned the validity of certain absent voters' ballot that had been cast. It is contended that some of these ballots were cast by people who were not absent, and other counts of similar nature were charged. Mr. Driver wishes the recount to be made for his own satisfaction and for his friends as well who have petitioned along with him for the recount.

LOOSE GRAVEL ON OLD SPANISH TRAIL TAKES TOLL AGAIN NEAR CITY

New Orleans Woman Is Victim as Auto Turns Over Eight Miles West of Bay St. Louis—Husband Driving at Time—Tragedy of Labor Day Vacation.

BAY LADY IN SERIOUS ACCIDENT

Mrs. Octave Fayard Injured, With Family, In Auto Crash Near Broussard, Louisiana.

Mrs. Octave Fayard, residing in Main street, was the principal victim in an automobile crash Monday night about 7:30 o'clock, at a point near Broussard, while en route to Lafayette, La., where the family was to visit Mr. and Mrs. Gaston Fayard, a son and his wife, who had spent the week-end in Bay St. Louis and were enroute home.

In the car, owned and driven by Mr. Fayard, were his wife, his mother, and his little niece, Gloria Parilla, who had spent the summer here and was to stop at her home at Destrehan, La., en route back.

It is feared a car bound for New Orleans, running at high speed, crashed into the Fayard car broadside, and wrecked it completely. Mrs. Fayard sustained several broken ribs, a broken shoulder blade and many bruises about the body, head and hands. It was first thought her condition was more serious, but the x-ray revealed injury as indicated above.

Mrs. Gaston Fayard was terribly bruised about the face, head and hands. Her condition is painful. Mr. Fayard was badly shaken up and sustained a number of minor bruises. Gloria Parilla escaped unhurt.

Mrs. Fayard and her daughter-in-law were taken to the hospital at Lafayette, where they are being treated and it is expected Mrs. Fayard, mother, will be able to be moved to New Orleans hospital within a few days.

On learning of the accident Mr. and Mrs. Otto Fayard, son and daughter-in-law, of this city at once left for Lafayette. Mrs. Coline, daughter of Mrs. Fayard, remained to take up her work at Central School, where she is a member of the teaching faculty. Late telephone reports from Lafayette received by the family are to the effect Mrs. Fayard was doing as well as could be expected.

Hospital Building Undergoing General Painting on Exterior

King's Daughters Hospital, Main street, is undergoing a general painting of immaculate white and the building already presents a most attractive and appropriate appearance in its garb of white.

Mrs. A. F. Fournier, State president King's Daughters, says the paint for this big job was donated by friends of the hospital, whose names are not to be divulged. The contract was given to William E. Sautier, well-known and expert local painter.

At a regular monthly meeting of King's Daughters' local circle Monday afternoon it was announced that the interior of the hospital would also be renovated and that the main rooms would undergo painting process and refurbished, this work all to be completed before the State convention of Daughters and Sons will have assembled in Bay St. Louis the latter part of next month.

Mrs. E. J. Leonard, local president, said funds for this latter purpose would be realized from a special benefit party to be announced later.

Loose gravel on the Old Spanish Trail, west of Bay St. Louis, again took toll when on Sunday morning last, at about 11 o'clock, Mrs. Augusta Grombach, aged 31, of New Orleans, was killed as she was pinned beneath an overturned automobile on the Old Spanish Trail eight miles west of this city.

Her husband, Herman Grombach, driving the car at the time, and escaped with only slight injuries. The auto showed no signs of damage after it had been brought in at Edwards Garage, Main street, save for a broken windshield.

Mrs. Grombach, as the car left the road and was ditched, was thrown to the ground and it was found, after she had been taken to the King's Daughters Hospital in this city, that her neck had been broken, so Dr. H. Ward, the attending physician declared.

The husband, grief-stricken, could not believe she was dead and repeatedly asked if that was positively so—possibly, he thought there might be a mistake. The man was frantic throughout the day until he awaited the arrival of an evening train that took the remains back to New Orleans for interment.

The Grombachs at the time of the fatality were on their way to Biloxi, their trip a Labor Day vacation and the husband stated they were going to visit friends and a good time was eagerly anticipated by both.

Another Accident on Trail.

The Grombach accident was preceded by another on the same stretch of highway in which W. W. Stecht, of Montgomery, Ala., and W. R. Deal of Oakdale, Ala., suffered injuries when their car turned over after running into loose gravel. Stecht was brought to the hospital here.

The week of October 4th is to be observed as Fire Prevention Week in an effort to reduce the huge loss of life and property caused by fire each year.

During 1930 it is estimated that there was a direct property loss of nearly \$500,000,000 as a result of fires, not including many additional millions of indirect losses in rentals, broken contracts, unemployment and interruptions to business. Thirty-five thousand people were killed or injured in these fires.

The need of every citizen to reflect upon these figures is apparent. Carelessness and negligence continues to cause many of our fires. The remedy for this lies within the citizenship of each community.

Let every citizen of Bay St. Louis resolve to exercise due care and discretion to avoid fires.

The winter season will soon be here, when the number of fires increase. Flues, chimneys and heat arrangements in every home should be carefully examined.

A WARNING TO WOMEN.

If girls and unmarried women of Hancock county require a warning they should get one in the recent revelation that a man in West Virginia, using matrimonial agencies as a source of names, lured two women to his home and killed them.

From Alabama comes the wail of a young lady, "I only wrote him in fun, and just think—this terrible thing might have happened to me." How many thoughtless women, seeking a "thrill," carry on such foolish correspondence?

WILLING TO COOPERATE.

A movement is on foot at Yazoo City to have a mass meeting of taxpayers to see if that city's expenses cannot be cut to a minimum. Instead of arousing the ire of the city's officials we learn from the Sentinel that they have expressed a willingness to discuss the subject with the taxpayers and are ready to apply the "pruning knife" when convinced that the municipal government can operate at less cost than at present.

MISSISSIPPIAN WINS FIRST PLACE.

Sergeant Reginald A. Herrin, Company C, 155th Infantry, of Jackson, won first place in the national rifle matches at Camp Perry, Ohio, last week. He will receive an autographed letter from President Hoover, the army ordinance trophy and a gold medal in addition to cash prizes for his splendid marksmanship. In any sort of competition where a Mississippian participates he generally "brings home the bacon."

NO PIKER

Walter Wolf, manager of the coupon department of the Continental Illinois Bank and Trust Company in Chicago, was no piker when it came to embezzling the funds of that institution. Last week he confessed to getting away with securities estimated worth \$3,000,000.

If you have the right idea of advertising, you will not expect a two-dollar space to bring you a thousand dollars worth of business.

Four constables of Dade county, Florida, the chief of police and a policeman of the town of Homestead were arrested Saturday on indictments charging malfeasance in office. The whole bunch have been accepting pay from bootleggers.

The State of Mississippi will pay out between October 1, 1931 and September 30, 1932, a total of \$4,506,923.19 in interest due on the State's indebtedness and on bonds maturing at that time, according to a schedule released by the state treasurer last Saturday.

When Mike Conner assumes the exalted office of governor of Mississippi he can count on the support of a united membership in both houses of the legislature, and it only remains to be seen if together the governor and the lawmaking body can solve the financial problems they will be called on to face.

An exchange tells of a young woman who came to that town four years ago to spend the weekend. She brought a trunk and two suit cases full of clothes. Last month she was back to spend two weeks' vacation. She had her three children with her and brought clothes for them in one overnight bag.

From Yazoo, Copiah and several other counties come reports of taxpayers' mass meetings being held for the purpose of demanding a reduction of tax levies, which they assert can be done by cutting down salaries of officers and abolishing the jobs of others, and adopting a program of economy on the part of the boards of supervisors in the expenditure of public funds.

An investigating committee alleges that Bishop James Cannon, Jr., received contributions amounting to \$100,000 to help him in his fight against former Governor Smith for President. This emphasizes the fact that the campaign in 1928 was a religious campaign and not all a prohibition campaign, as many have erroneously believed.

IT IS COMING.

AS predicted by the Echo some time ago, the matter of consolidation of counties will be brought before the next legislature shortly after the session gets under way. According to the Jackson Clarion-Ledger one definite plan understood to be in prospect is to reduce the State's 82 counties to 40, thereby cutting decidedly expenses of operation of county governments, which now amounts to about \$57,000,000 a year, as shown by figures compiled by State Auditor Carl C. White.

While the incoming governor has not expressed himself with regard to the matter it is believed that he would favor reduction in the number of counties, as in all his campaign utterances he pledged support to any movement which promised economy in government.

It is asserted that by consolidation a saving of not less than \$12,000,000 would be saved to the taxpayers by doing away with unnecessary offices and their expenses.

That a strong and determined opposition to consolidation will come from many present county officials, justices of the peace and constables is a foregone conclusion, but such opposition should not deter a patriotic legislature in an effort to give relief to the State's tax-burdened people. Sooner or later consolidation will be an accomplished fact and the office holders might as well make up their minds to accept the situation confronting them. It is coming.

STILL TAKING TOLL.

ANOTHER life was snuffed out in an automobile wreck on the Old Spanish Trail last Sunday, due to striking loose gravel and turning over. The Echo has lost count of the number of people who have been killed and injured in such wrecks on that stretch of the Trail leading from this city to the Louisiana State line, and the list will continue to grow until the treacherous gravel is replaced with some other type of material. Of all the highways in the State there isn't one over which more traffic moves than on this particular link. There isn't a day in the week that several hundred automobiles do not use it and on week-ends the number runs into a thousand or more. No time should be lost by the highway commission in giving first attention to making the link safe for motorists, and The Echo believes the commission should be impressed with the importance of taking immediate action in order that no more lives are lost through wrecks caused by loose gravel.

STATE DEMOCRATIC COMMITTEE ADOPTS RESOLUTION.

WITH only one dissenting vote the State Democratic Executive Committee adopted a resolution demanding repeal by the next legislature of the absentee voting law. From every section of the commonwealth the committee received reports branding the practice as "detrimental to the honest good." The law was first adopted as a war measure in order to give the State's soldiers an opportunity to cast their ballots and later amendments extended the privilege to all civilians who might be absent from their respective voting precincts on the day of election, and right then and there the doors were thrown wide open for the commission of fraud, and the abuse of the law has been recognized throughout the State in every election held since its enactment.

WHAT WILL BECOME OF FARM HANDS?

ACCORDING to census figures that out of a total negro population of 11,891,143 in the United States, 9,361,577 of them are in the Southern States. It would be a conservative estimate to assert that 75 per cent of the "colored brothers and sisters" are to be found in the cotton fields, and should all this discussion of reduction in cotton acreage or planting none at all next year be carried out will somebody please inform us what is to become of the millions of negro farm hands. With an estimated six million or more people unable to secure employment the number of such would be more than doubled "as sure as shootin'."

A GOOD PLAN.

WE believe Senator Joe T. Robinson of Arkansas has suggested the best and most sensible plan yet proposed on the subject of over production of cotton. He proposes a five-year 50 per cent curtailment of the crop, and it would be well for the legislatures of the several cotton growing States to adopt his plan. Granting that laws prohibiting the planting of the staple were passed, it is doubtful if same could be enforced, as there is some question as to the constitutionality of such legislation.

WOULD NOT WORK HERE.

UP at Tdopelo the town council has adopted a curfew ordinance and anybody found on the streets from midnight until 5 a. m., night workers and policemen excepted, will be sent to jail. Such a law down here on the Coast would prove a dead letter as our young people don't begin to have a good time until the midnight hour has come and gone.

TO SAVE HIMSELF.

Governor Bilbo now says that he would consider calling the legislature into a business session to study the cotton situation, provided a majority of the lawmakers sign his "no investigation-no-impeachment pledge." To save his own hide Theodore is willing to see the cotton planters of the State go bankrupt.

BREAKS RECORD.

Within the short space of 11 hours and 15 minutes, Major James Doolittle broke the record of Captain Frank Hawks in a flight from Burbank, California to Newark, New Jersey, a distance of 2,454 miles. His average speed was 225 miles an hour.

CURRENT COMMENT

PROMINENT CHICAGO manufacturing men have organized in an effort to induce the federal government to stop competing with private enterprises. Their argument that the government collects taxes and uses the funds thus realized, to put out of business the men who pay the taxes, is worth thinking about. Big business is not popular with the masses, and the centralized federal government should see to it that it does not become the most powerful and flagrant offender.

The English Channel has always been more than one scene in his lively plays upon its shores. The people have watched with interest, as it was crossed for the first time by a swimmer, and by an aviator. An Austrian is the latest person to flaunt his course in the frowning face of the historic strip of water. He walked from France to England, shed with a pair of buoyant shoes of his invention.

Years ago, a much-quoted worthy wrote: "Westward the course of empire takes its way." It has not changed its direction of movement since his time. Shifting at the rate of about sixty feet per day, the center of population in the United States has moved from a point in Maryland to a point in Indiana, since the War of the Revolution.

A vessel constructed during the World War has been used as a target and sent to Davy Jones' locker, with the apology that it was never much good anyhow. The further one gets from the World War, and the more closely one studies its aftermath, the more pertinent becomes the inquiry as to what good the entire effort accomplished.

Hall Caine, English novelist, is dead. His enduring monument is a shelf of books that were at the same time good sellers and free from smut. There was little in his writings that, at the close of his career, he might be said to have. Novel readers are afflicted with the efforts of a popular present-day school of authors who cannot hope for the same light at eventide.

Two planes collide at a height of about a half mile, and the aviators escape to safety by parachute jumps, a circumstance indicating that aircraft may be as safe as autos, in the event of accident, and that traffic cops in the air may get be needed. The airplane operator generally has plenty of space into which to jump, and a means for deadening the shock of his fall. That is more than can be said for the drivers of motor cars.

The diplomats and ministers of European nations, assembling at Geneva, are said to be about to open a fight over matters of general concern. This is news. We did not know that the fight ever had been called off.

It is now proposed that the armed forces of all countries be turned over to the control of the League of Nations. Uncle Sam is not much interested in the scheme. Perhaps he has no desire to become a second King Lear. That monarch, after divesting of rule and authority, and then started to argue about the size of his army. This is what he got in reply: What! fifty followers? It is not well? What should you need of more?

I entreat you To bring but five and twenty. Hear me, my lord. What need you five-and-twenty, ten or five, To follow in a house, where twice so many Have a command to tend you?"

JUDICIARY**His Nomination In Doubt.**

The failure of President Hoover to do anything of real service for his country is having the effect of lessening his chances for renomination for another term in the White House. Many of the leaders of the Republican party believe that it would be suicidal to name him as their standard bearer in 1932, realizing that his administration has accomplished nothing to which they can point with pride, but on the contrary, they know that most of the economic ills from which the country is today suffering is due the tariff measure which had Mr. Hoover's earnest support.

A Washington correspondent asks the question "Should Mr. Hoover be the candidate again?" and then proceeds to comment as follows:

He has some elements of strength. He leads a clean life; he is a tremendous worker and is constantly at it; I believe the common opinion is that he is trying to help on this unemployment and hunger and cold condition of the people in the country, especially for the coming winter; he is for prohibition and this country is dry and will continue to be so unless the fool friends of prohibition upset the beans; I believe there is a sort of sympathy, a kind of pity, developing for the man, to the effect that he is trying, but can't, and that he is working pretty much alone, without a great deal of help from his party or anybody else; he has his appointed office holders who want to hold on to their jobs and who will go along with him until they conclude the ship is sinking, when they will do like the rats; he still has a considerable portion of the big business men for him, who are in sympathy with his standpoint, prejudices, and as long as they are with him he will have a good deal of the city press. Now isn't that above the sum total of his strength, except that he will be on the Republican ticket and more people in the country blindly follow that one lead than any other?

On the other hand, he has many and great weaknesses. First, it is the common thought that he has been a failure; the country is crying for leadership and he has none of the elements of a leader, neither the initiative, the sympathy, the fire, nor the capacity to inspire; he is naturally an "alone" man and has been the life of shrinking from human contacts.

The farmers think he has thrown them down and doesn't know how to work out their great problems; the laboring people think his sympathy is not with them; he has gone along with the selfish, unseeing, high-tariff beneficiaries who are tearing down our foreign trade and robbing our home people blind; he is with the crowd that by fair means and foul—mostly foul—have concentrated nearly all the wealth in a few hands.

The Progressives were tearing their shirts for him last campaign, look at Borah and Brookhart—but they are now the most bitter toward him of any of the groups; he is at the outs with many of his own party leaders; he does not know how to surround himself with big men; he is when his friends are out of jobs and in want, and no matter how much of the responsibility is his he is getting the blame; in 1928 he was thought of as the super-man—today he is discredited and a disappointment; he simply does not seem to have the IT to be President.

One hundred and thirty-five dollars is the net cash returns of the benefit dance at Clermont Harbor given at the hotel pavilion Saturday evening in an effort to raise funds for the building of a public pier at that point by the Clermont Harbor Improvement Association.

In addition to that amount considerable returns are yet to be heard from, including cash contributions from interested parties residing away, and what the ultimate amount will be thus realized cannot be stated at present, however, the benefit will yield considerably.

Officers of the association in charge, C. F. Jenkins, president; Joseph C. Chalona, vice president; and Edward Nathan, secretary-treasurer, are elated over the success and have requested The Echo to thank the people of both Bay St. Louis and Waveland, especially the business people who made substantial donations, for their generosity; also, to one and all who attended and who in any way contributed to success.

There will be a meeting of the association this Saturday night at Clermont Harbor when it is expected to let the bids for the building of the proposed structure, which it is planned to build at first to an extent of 800 feet and possibly to 1000 feet, depending on the finances in hand. It is planned to build immediately, not waiting for the beginning of next season, thus the pier with its roofed pavilion, may be enjoyed during the winter season.

As to the location of the proposed pier this will also be discussed and finally disposed of. It is planned to place the pier at any point where it may be more easily accessible to the greater number.

The improvement is hailed with much enthusiasm and that it will be built at once makes the matter of all the more interest. The people of Clermont are to be complimented on their progressiveness and determination to go ahead with improvements of such character, regardless of so-called depression and other elements that breed fear and anything but progress.

THE ECHO'S COOKING CLASS

Caramel Cookery

Caramel is a good home-made flavor made by burning sugar. A egg will melt as soon as it has melted and it is golden brown it is ready for use.

Put granulated sugar without water in a deep aluminum pan, over a medium fire and stir constantly while the sugar dissolves. It must not scorch as soon as it has melted and is golden brown it is ready for use. Add three tablespoons of hot water to each cup of sugar, to prevent turning black to sugar when cold.

Caramel Bread Pudding.

Place two thick slices of bread cut in small pieces into the bottom of a baking dish, dot with butter, a few raisins and a half cup of sugar, pour one half cup of caramel over this. Beat two eggs light, add two cups of milk and pour over the bread. Bake in a moderate oven until firm. Serve with or without cream.

Caramel Cream Pie

Bake a light pie shell and let it cool. Into a double boiler put two cups of milk, allowing it to scald. Add a cupful of burnt sugar syrup stirring until it dissolves. Beat two eggs well, add two tablespoons of cornstarch and a half cup of sugar. Pour into the hot milk and cook until thick—put in crust and bake in hot oven until light brown. Serve with crushed fruit.

Caramel Fingers

Roll left over pie dough thin, cut in strips three inches wide, spread with soft butter and brush with warm caramel. Place one strip on top of another and bake in a hot oven until brown.

Caramel Pudding Sauce

Boil two cupfuls of water, add a tablespoonful of butter, a pinch of salt, a half teaspoonful of cinnamon and a cupful of caramel. Stir a teaspoon of cornstarch in a little water and add. Beat the yolk of two eggs and pour in slowly. Beat the white stiff and put in as you take it from the stove. Flavor with vanilla.

HARRISON TALKS ON LABOR DAY

At Tampa, Fla., and Lays Ills of Jobless to Repub- licans—Asks Chance For Democrats.

Senator Pat Harrison, of Mississippi, blamed the tariff for unemployment in the country to give the Democratic party a chance to relieve the economic depression in an address he delivered at a Labor Day celebration at Tampa, Fla., Monday. He advocated road construction and the vigorous prosecution of a public works program through federal and state co-operation as the means of relief from the unemployed. He said he did not favor the dole policy but if conditions do not improve by winter, he would advocate "throwing precedent to the winds and appropriate money out of the federal treasury to meet the situation."

Pointing to the excessive production of wheat, cotton, and corn notwithstanding that people "are still suffering and starving," the Mississippiian called upon the government to go ahead with its road building and public works construction and said "every industrial organization should follow the lead and undertake improvements and extensions they have delayed doing."

"I suggest that in this land of milk and honey, the world over every man a living, and the saying should be literally true if our economic laws are properly administered by the party in power."

"So if the Republican party cannot give employment to the citizens, the Democratic party can," Senator Harrison said. The Smoot-Hawley tariff law "with its increases has done more to add to our unemployment troubles than any other factor. It caused retaliations and boycotts for foreign peoples. It added to our surplus problems, closed foreign markets we once dominated and destroyed our foreign trade."

He charged the cry of "protecting American labor" was "but a sham and pretense. It is gross hypocrisy."

"Labor in this country has received just treatment until it demanded it and was organized to get it."

"The people have not lost faith in the government of their fathers, but in the present administration. The constitution which has brought health and happiness to our nation for 150 years is still sound, but the result from the laws enacted by the present administration is a part of our predicament."

WAVELAND SENTINELS B. B. TEAM DISBAND FOR WINTER—FINE RECORD

Played Last Game at Picayune Sunday—7 Inning Tie Result When Rain Halted Game—Players Make Individual Plays.

Although Waveland Sentinels will probably play host to the Gulfport Tarpons next Sunday afternoon, the crack team of our sister city is practically and officially disbanded for the season, following a season of splendid playing and fine record, which is indeed gratifying to the management of the team. The Sentinels have proven a fine advertisement to Waveland.

Waveland Sentinels of the Coast League held the Picayune team Sunday to a 3-3 deadlock for seven innings Sunday at Picayune when rain halted the play.

Left Egluff gave up nine hits but kept them well scattered, while Max gave his steady support making three runs in the sixth inning off three hits, two errors and a wild pitch.

J. Bourgeois singled to start the round, Buck Morris followed with a safety and both advanced on Mudge's error. Jack Ladner brought both runners home with a drive down the leftfield foul line. Ladner advanced to second on the first baseman's error and scored on a wild pitch.

Picayune scored in the first inning when Albritton, first man up, was hit by Egluff, sacrificed to second and scored on Hartfield's single. A snappy double killing executed by Harold Bourgeois, T. J. Bourgeois and Pat Morris on Tatum's grounder tied the score.

In the sixth to tie the count with two double plays unassisted halted the rally. It was Egluff's only bad inning and left the two teams in a deadlock as rain halted play at the start of the eighth.

The Waveland Sentinels will probably play host to the Gulfport Tarpons next Sunday.

CONFLICT ON THE AMERICAN-MEXICAN BORDERLAND LINES

Tense Situation on International Bridges at Texas Ports of Entry Into Mexico.

By JOHN T. MEYERS
(For The Sea Coast Echo)

San Antonio, Tex., Sept. 8.—All is not quiet on the Texas-Mexico borderland along the meandering Rio Grande. A tide of open hostility has been hovering over this section for some time following an order by the United States government that closes the International bridges at Texas ports of entry into Mexico at 9 o'clock nightly.

Previously the bridges had remained open until midnight. Pleasure was brought to bear, however, when it was charged that wide-open gambling and other vices were permitted to exist unrestrained in the Mexican towns across the river from El Paso, Laredo, Eagle Pass, Brownsville, and other Texas towns.

This action by the American authorities has caused a great deal of ill feeling among the saloon owners, dance hall proprietors, cafe owners, and other business men in the Mexican towns. They claim the early closing hour was prompted by selfish aims of American merchants and business men in an effort to compel Americans to spend their money on the American side of the Rio Grande. Many employees of the Mexican business places affected by the bridge closing order were forced out of employment, it is said.

An attempt at retaliation has been made by the Mexican Chambers of Commerce, who suggest an order by the Mexican authorities to close the bridges from 8 A. M. to 9 P. M., the time now permitted for traffic by the American authorities. Should this decree go into effect it would mean that connections between border towns in Texas would be severed.

The late killing of two Mexican students enroute to Mexico, one a nephew of President Rubio, by Oklahoma deputies has also had its

KNOW MISSISSIPPI BETTER TRAIN IS BACK— MURPHREE DELIGHTED

Mississippi's Famous Advertising Train Returned To Jackson Saturday After Visiting East And Into Canadian Country.

Mississippi's wandering advertisers came back home to Jackson Saturday with stories of the greatest entertainment thrills ever known by a Know Mississippi Better party.

Banqueted, barbecued and otherwise feted by dignitaries of two nations, members of the party found Old Mississippi a delightful stopping point after a series of international hospitality touches that left nothing to be desired so far as warmth is concerned—particularly as regards the weather.

"We found warmer weather almost everywhere than we had left in Mississippi," said former Governor Dennis Murphree, upon reaching home at the conclusion of his seventh goodwill crusade.

"People were wonderful to us everywhere we went. Mayors, governors and other public officials gave us all the time one could desire."

"Entertainment at Montgomery, Tampa, Macon, Ga., Wilmington, N. C. and Richmond, was followed by a delightful visit at Washington, and when we reached New York we found former United States Senator Royal S. Copeland, a Clarion-Ledger staff writer had come up from Washington to speak to us."

"In Canada we were guests of the Canadian National Exposition, known as the largest exposition on the North American continent."

"Everybody was interested in Mississippi, and gave us wonderful open hearted hospitality everywhere we went."

The wanderers completed the trip without even a slight accident or case of illness. Dr. Felix Underwood, state health director, declaring that he had less calls for medical service than on any previous trip.

The party was no sooner back than plans were under way for next year's tour, which at this time calls for a swing to the far west, to visiting Los Angeles before turning off into some other direction, possibly up the Pacific Coast.

Officials also have under advisement the idea of making the Know Mississippi Better movement a year-round idea, with a permanent association to follow up throughout the year the matter of making Mississippi better known over the continent.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 years old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had hungry moments."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—you can get Kruschen at any drug store in America. It not only satisfies after the first bottle—money back.

HANCOCK COUNTY BAR PASSES RESOLUTIONS OF RESPECT

In Memory of Anselm Bryan Russell—Read at Memorial Service at Jackson, Sept. 5

At a meeting of the Hancock County Bar Association, held in Bay St. Louis on Saturday, September 5th, with W. J. Gex president and Emile J. Gex secretary, resolutions of respect and in memory of the late Anselm Bryan Russell, was drafted and adopted, on motion of E. J. Gex and seconded by Walter J. Gex, Jr., as follows:

The death, in April, of this year, of Anselm Bryan Russell, cut down in the midst of a brilliant career, one who seemed destined for achievement of the highest order. At an extremely young age, he graduated from Mississippi College, receiving a degree of Bachelor of Arts. The United States had just entered the World War, and he immediately enlisted, for active service. Sent overseas, he distinguished himself in service, and at the close of the war remained in Paris for another year, engaged in study at the University of Paris. Immediately upon his return home, he took up the study of law, and having entered the legal profession, was thereafter until the day of his death, one of its most able members. Not only was he gifted in the science of law, but also in the science of statesmanship. His record as a member of the House of Representatives, where he was one of the youngest of its members, brought credit to himself and to his constituency. His is a record of unflinching energy, loyalty and achievement.

To know Bryan Russell was to like him; to call him "friend" was to lay claim to distinction, and to know him intimately was to attain a higher knowledge of the virtues of honesty of purpose, ambition and accomplishment. We record our admiration and love for our associate, our loss of a faithful fellow member, and our deep regret at his untimely passing when it seemed that he had not yet reached the height of his career.

On motion of Lucien M. Gex, duly seconded by Edward Jones, it was unanimously ordered that a copy of this memorial be presented to the Chancery Court of Hancock County, Mississippi, with a request that some be spread upon the Minutes of said Court; that a copy hereof be forwarded to the Honorable and Mrs. D. M. Russell, the parents of Anselm Bryan Russell; and that another copy hereof be forwarded to the Clerk of the Supreme Court of the State of Mississippi, to be read at the Memorial Service to be held on the First Monday in September, in the Supreme Court Rooms at Jackson, Mississippi.

Pass Christian Is Defendant in Three Thousand-Dollar Suit

Seeking to hold the municipal authorities of Pass Christian responsible for a dislocated toe and a bruised foot suffered by him when he stumbled while walking along a Pass Christian sidewalk, Herbert Owen, Jr., of Pass Christian has filed a \$3,000 damage suit in the Circuit Court of Harrison county against the city of Pass Christian.

Owen, who filed his suit through his father, Herbert Owen, Sr., claims that the municipality was negligent in the construction of a driveway crossing the sidewalk which he says was slightly elevated above the sidewalk proper and over which he stumbled and fell.

He charges that the city had constructed the driveway with its own workmen and was therefore responsible for the elevation, which he claims was two or three inches above that of the sidewalk.

The municipal authorities named in the suit as defendants are: J. H. Spence, mayor, and the aldermen, Donald Dmetz, P. A. McCollister, Herbert Hanson and James Smith.

WITHOUT RAILROADS

What would these crops be worth!

At this harvest season, when American farmers have produced bumper crops which must be transported to markets, the readers of this newspaper should pause to consider the importance of American railroads to the progress of both rural and urban citizens.

If there were no railroads and the farmers were forced to use trucks or planes, how could these enormous crops be gotten to market?

With the disturbing conditions which exist in the transportation industry today, the highly regulated and over-taxed railroads are suffering such enormous losses in revenue that, though they are the most efficiently operated transportation system in all the world and afford the lowest cost to the shipper and traveler, the value of their properties is constantly being endangered by other forms of transportation which operate without adequate taxation or regulation.

The railroads deserve your patronage. They built this nation and must continue to be the backbone of its transportation system. The steam railroads are appealing to the fairness of the American people in the hope that an equalization of operating conditions may be brought about among all forms of transportation so that the railroads may earn a more nearly fair return on their investments.

The Transportation Act permits the railroads to earn 5% on

Death After Lingering Illness Closes Career of Horatio H. Weston

(Continued from page 1)

Mississippi logs that were floated down the many small streams into Pearl river during the spring rains and eventually gathered at the boom at Logtown mill.

Mr. Weston spent his life working for the development of Mississippi. He took an interest in promoting the Old Spanish Trail short road from the Gulf Coast to New Orleans.

Mr. Weston was president of the Hancock county board of supervisors when the \$125,000 sea wall of Hancock county and the Beach Boulevard was dedicated and opened in August, 1929.

In a month after making the annual trip of honor salesmen of life insurance of his company during August, 1929, he was stricken with paralysis while signing a paper at the presidential desk on the 10th floor of the Lamar Life building in Jackson.

In Bay St. Louis and Hancock. The memory and influence of H. S. Weston in Bay St. Louis and Hancock county, as well as in the State of Mississippi, will long live, even after this generation will have passed away.

In Bay St. Louis, the county seat, the impress of his usefulness and influence were well reflected in public and private life. As member and later as president of the Board of Supervisors he was a worker and a power for all that stood for constructive policies.

He was a man independent in thought and action, and always sure that he was right, he always led the way. In Bay St. Louis, although he was not a resident of this city, he pinned his faith with his work and accumulation of worthy goods. It was his with his associates, who built for this section the great auto bridge that spans the 2-mile distance over the waters of Bay St. Louis. The city without an adequate hotel, he built the Weston Hotel, and as president of the Hancock county Bank he soon built up from a small institution one to that extent that made it known over the State and built up its resources into the millions. It was through his vision and progressiveness that he gave the city of Bay St. Louis its first paved street of any consideration; he evolved and built the great beach boulevard and seawall along the Hancock county shore line, the first work of its kind on the Coast. These and the Old Spanish Trail and other projects of local interest stand as monuments to his interest, willingness and ability to forge ahead and do, all representing as a whole one great monument to this lamented friend and citizen of Hancock county.

Menn pass away. Their memory do not die, however, their deeds and their accomplishment for their fellowmen live on as an imperishable tribute to their worth and serve as examples that others might be inspired and live accordingly.

His passing away is the occasion of widespread sorrow. It had been hoped that during his long illness he might have been able to return to his home and the soil and people he loved so well. It was his one great desire to be back home at some time when conditions of his well being would permit. But Providence decreed otherwise. However, his spirit will ever dwell locally and in the hearts of the county-wide population of Hancock they will ever be an abiding place of love and affection of the memory of Horatio S. Weston.

Friends had decorated the altars and the church presented a fitting scene to so happy and beautiful an occasion.

The bride, in all the glow of her youthful beauty, was charming in a white dress of satin and lace, satin slippers. She wore the regulation bridal wreath and veil, the cap of which was of orange blossoms, pearls and rhinestones most becoming and fitting to the costume that evidenced so both taste and beauty. She carried a bouquet of Bride's roses and the altar leaning on the arm of her father, who gave her away to the groom-elect who awaited her at the altar.

The personnel of the bridal party was composed of Mr. Ernest Marquardt and Miss Martha Fischer as best man and maid of honor. Miss Baubler was attired in flesh colored chiffon, net hat, satin shoes and she carried a bouquet of pink Bride's roses.

Mr. Warren Carver with Miss Clothilde Monti followed. Miss Monti was attired in yellow chiffon, with blue sash, blue hat and blue satin slippers; with white gloves. She carried a bouquet of pink Bride's roses. The bridal party continued with Mr. Frank Carver and Miss Mary Loiacana, the latter in peach colored chiffon, with hat and slippers of blue, white gloves. Her bouquet was also of pink Bride's roses.

Concluding the line were Mr. Anthony Benigno and Miss Margaret Schindler. Miss Schindler wore a dress of salmon-colored chiffon, but sash and slippers of becoming blue shade, as well as her hat of the same color. Her gloves of white, she carried a bouquet of pink Bride's roses.

The groomsmen were attired in blue serge coordinated with the bridesmaids. During the ceremony a musical program added to its interest and beauty, with Mrs. E. V. Weber at the organ, and her sister, Mrs. J. J. Ryan rendered a vocal selection of "Gounod's Ave Maria." Miss Louise Armstrong accompanied with the violin and Mr. E. V. Weber in baritone sang two appropriate selections.

Mr. and Mrs. Weinberg have gone to housekeeping in their recently purchased home in Keller, avenue, where they are "at home" to their friends, and concluded in the beautiful furnishing of the majority of things are handsome wedding gifts.

Both young people are well and popularly known, the groom a brother of Mr. Alvin Weinberg, widely known business assistant at Fahey Drug Company's establishment. He is an exemplary young citizen and well worthy of the young lady whose heart and favor he has won.

At 8 o'clock a reception to their friends was held on the lawn given at Knights of Columbus Hall, Main street, to which it is estimated that from three to five hundred people attended. Friends from away as locally paid tribute to the popularity of the deserving young couple who have started on the way of life amicably—so happily and destined to share in all the good things of life that go to make for peace and contentment.
